Professional Summary

Experienced PHP Developer with over 3.5 years in the IT industry, specializing in Laravel and PHP for scalable web applications. Proficient in Agile methodologies, including SCRUM, with a focus on end-to-end development, deployment, and maintenance. Adept at collaborating with stakeholders to deliver high-quality solutions, mentoring junior developers, and optimizing performance. Passionate about adopting new technologies and seeking a Laravel Developer role to contribute to innovative projects.

Hard Skills

- **Laravel & PHP Development:** Expertise in backend and API development, building RESTful APIs, and optimizing performance.
- **Web Application Development & Deployment:** Full lifecycle experience with CI/CD pipelines.
- **Data Mining and Analysis:** Skilled in data extraction, processing, and visualization for business insights.
- **Web Hosting & Server Management:** Proficient in shared hosting, VPS, and cPanel environments.
- **Database Management:** Advanced skills in MySQL and PostgreSQL for schema design and query optimization.
- **Version Control:** Proficient with Git and GitHub for collaborative workflows.
- **Project Documentation & Monitoring:** Experienced in creating detailed documentation and tracking progress.
- **Agile Methodology & SCRUM:** Skilled in sprint planning and backlog management.

Soft Skills

- **Observation & Analytical Thinking:** Strong ability to analyze problems and derive actionable insights.
- **Decision Making & Problem Solving:** Effective in evaluating options and implementing solutions.
- **Communication & Collaboration:** Excellent team player with clear communication skills.
- **Multi-tasking & Time Management:** Efficient in managing multiple priorities and deadlines. **Adaptability & Quick Learning:** Rapidly adapts to new technologies and project.

Professional Experience

Technology Sales, Laravel PHP Developer
Present Kathmandu, Nepal

August 2022 –

- Developed scalable and secure web applications using PHP Laravel, ensuring robust backend logic and API integrations.
- Managed project documentation and tracked progress for stakeholders using tools like Jira and Confluence.
- Researched and implemented modern libraries to enhance project quality and user experience.
- Coordinated projects with multiple stakeholders, aligning on timelines and deliverables.
- Developed and hosted WordPress and custom web systems, managing deployment and maintenance.
- Assisted in data analysis and reporting to support business decisions.
- Mentored junior developers, fostering team growth through code reviews and training.
- Contributed to sprint planning and backlog prioritization in an Agile environment.

Bits, PHP Developer
2021 Nepal

February 2021 – July

- Developed web and WordPress applications tailored to client specifications.
- Handled project documentation and monitoring, ensuring transparency with stakeholders.
- Managed web hosting setups, including server configuration and SSL implementation.
- Collaborated on troubleshooting and resolving bugs to meet performance benchmarks.
- Conducted code reviews to improve code quality and maintainability.
- Integrated third-party APIs for enhanced application functionality.

Ninja Infosys Pvt. Ltd., PHP Developer
2020 Nepal

February 2019 – June

- Mentored junior team members, sharing knowledge on development workflows.
- Participated in sprint planning, defining tasks and estimating efforts.
- Researched new technologies to improve project outcomes.
- Developed web applications using Laravel, focusing on clean and modular code.
- Performed database optimizations and migrations for data integrity.
- Assisted in deployment processes and version control management.

Education Background

Bachelor's degree in computer science and information technology (CSIT) 2019 – 2023
Nepalgunj Campus of Management and Technology, Tribhuvan University, Nepal

- *I studied programming, algorithms, data structures, and software engineering.*
- *Completed projects in web development and database systems.*
- *I gained experience in Agile methodologies through group assignments.*

Higher National Diploma in Computer Engineering *2015 – 2018*
Swami Devi Dyal College of Technical Education, India

- *I specialize in Computer Science in Engineering, covering hardware-software integration.*
- *Completed labs in electronics, networking, and software development.*
- *Developed projects on embedded systems and basic web applications.*

School Leaving Certificate (SLC) *2015*
Nepal

- *Excelled in mathematics, science, and computer basics.*
- *Participated in technical electives and extracurricular activities.*

Achievements

- *Led development and deployment of multiple web applications, improving client efficiency.*
- *Mentored over 5 junior developers, enhancing team capabilities.*
- *Optimized Laravel projects, reducing load times by up to 30%.*
- *Contributed to open-source PHP and Laravel repositories on GitHub.*
- *Completed Agile certification, improving project delivery timelines.*

Additional Information

- *Languages: English, Nepali (Native), Hindi (Proficient)*
- *Interests: Exploring AI and cloud computing, hiking, tech communities*
